## FINANCIAL AND COMMERCIAL

The gold market has been very firm to-day and the actuations were from 138% to 138%, with the clostransactions at the highest point touched, the quotation on the street being 138% a 138%. he rates paid for carrying ranged from two to six er cent. The gross clearings amounted to 46,355,000, the gold balances to \$1,890,088 and the rency balances to \$2,871,189. There was a goo oply of money during the forenoon at seven pe ant in currency, but between half-past one and alf-past two there was a sharp demand, and one exteenth of one per cent commission was ud for loans in a few instances. After this the pressure subsided and little difficulty was experienced in making up bank counts. The natural activity of the money market ickened by the calling in of loans in cons sions excited by the sudden de of more than sixty per cent in the stock of the Mantic Mail Steamship Company, which formerly whed the steamers running between this port and inwall, in connection with the Pacific Mail comsteamers from Panama to San Francisco out two years ago, however, it made an arrange with the Pacific Mail Company which it sold its steamers in the Califor-ala trade to the latter, and received in seturn a certain amount of its stock. Instead of holding this it is rumored to have sold it long age, and since the negotiations referred to it has urn ports, most of which are understood to be charared only. The stock for years past has been held the immediate cause of the present catastrophe was he failure of a broker in Nassau street who was The failure is reported to have been the result of his bility to pay off loans on the stock winch were and this affords a practical lities ration of the danger to the banks of at all on any other than first ass collaterals with wide margins. The question rises how much Atlantic Mail is hypothecated with banks in this city, how much per share have hey lent on it and what is their net loss with the ck at 35, this being the closing price for it-an nce of ten per cent upon the lowest point ched. And yet this stock sold at 114 in January and the banks considered themselves safe in erals. As recently as this date last month it sold at 914, and it is only now that the full extent of rottenness has been practically shown, albough it has been regarded with distrust for any months past. And yet this was a ten per cent lividend paying stock, or rather a dividend paying windle, as we may now call it. How soon a similar ak may occur in the speculative railway shares is ertain, but it is obvious that some of them at east are liable to it; and if the market lost the supt, either by accident or design, of but one man ho is now sustaining it a fall like that we have just shronicled would be the inevitable result, and when ich hangs upon a single life and a single will the danger of the situation is obvious to all. But spart from this the whole market is wholly dependat upon artificial support, and if the buil cliques give way it is easy to foresee the consequences. The cry then will be, "stand from under,"

Many of the country banks are drawing down their balances here in consequence of being drawn upon by their depositors with ore freedom than usual now that their quarterly returns are made up, for it is no secre that the officers of these talk plainly to their principal customers before quarter day, and get the latter to adjust their accounts to suit the con-Mer that time. Hence the demands upon the ountry banks are all the greater for a week or two afterwards. But while this is the condition of ot a few- of their number it is otherwise with he remainder, which instead of reducing their palances here, are adding to them, and this is parlarly the case with the larger banks; so that the pts of currency at this centre are likely to exeed the outward drain for the next week or ten lays, and after that time the flow from the interior will be materially quickened. In this connection we may mention that a portion of the legal reserve of untry banks is allowed by law to remain on deposit in New York, Boston or Philadelphia, and whatever balances they may have in those cities are counted in their quarterly statements as legal tender notes in hand. The Secre ary of the Treasury has written a letter to Mr. Van Dyck modifying his former instructions with respect to the three per cent certificates, which, according to he authorizing act, are payable in "lawful money," ch last he now holds to mean greenbacks, and not either greenbacks or national bank notes, or both. as formerly. This will have the effect of strengthentheir own reserve so far as these certificates are concerned; but there still remain the compound interes otes and the specie, which are practically unavailable although counted as a part of the twenty-five per cent required to be held against deposits and The farce of including specie in the reserve and the evils attending the preparations of banks for their quarterly returns demand th attention of Congress. These periodical statements as they all "trim ship" for the occasion to the dis turbance of monetary affairs at all the commercial

centres.

It will be seen by the law reports that a receiver of the proceeds of the sale of the new stock of the Rock Island Railway Company has been appointed by Judge Cardozo, and the issue of the forty-nine thouargument in the case of Schell vs. the Eric Company was resumed in the Supreme Court, general term, Court of Common Pleas, heard the argument on the traverse filed by Mr. Jay Gould and adjourned the further hearing until Saturday morning. The Eric bill was not reached on the calendar of the Senate prior to the adjournment of that body until Saturday. The stock of the Erte Company was weak and ettled during the day and sales were made as low

sket was drooping, and at the early session of the open board there was a heavy break in Atlantic Mail at the first regular board. Yesterday Pacific Mail also declined to 89% under a pressure to sell. Effe at 120% a 120%. At the first regular board the market was weak and unsettled, and New York Central 1%, Reading 1%, Rock Island 2%, Northwestern pre ferred &, Fort Wayne 1, Toledo and Wabash &, Milsippi 14, Pacific Mail 3 and Western Union Tele graph 14; while Quicksilver was 14 higher. Governnent securities were active at a decline of % a % from the highest prices of yesterday, and in the case of ten-forties %. After the call Erie declined to 70% and Atlantic Mail to 25, a decline of sixty-two and a half per cent in a single day. Five hundred shares of the gradually recovered to 23, and the tendency towards temporary improvement became general. At the open board at one o'clock strong efforts were made by the buils to rally the market and Erie sold at 70% a 71%; Atlantic Mail, 35 a 38, and Pacific Mail, 89% a 80%. The upward reaction made further progress after the call, and at the second regular board the market was steady and Eric closed % higner than at Mississippi & and Western Union Telegraph &, while New York Central was 1/4 lower, Toledo and Wabash M. Milwaukee and St. Paul preferred & and Pacific Mail 4. Government securities were dull but steady. At the open board at half-past three the tendency of prices was again downward and Erie sold at 71% a 71%; New York Central; 121% a 121%; Fort Wayne, 161% a 101%; Michigan Southern, 90% a 90%; Reading, 90% a 90%; Pacific Mail, 90% a 91; while Atlantic Mail was quoted at 33 a 36. The market continued duil and drooping during the remainder of the afternoon, and at the close at six o'clock the following quotations were current:-New York Central, L201/4 a 121: Erie, 713/4 a 711/4; Reading, 891/4 a 891/4; Michigan Southern, 901/4 a 901/4; Northwestern preferred, 751/4 a 251/4; Rock Island, 94% a 95; Pacific Mail, 89 A 89%; and Fort Wayne,
